

High Performance Diesel Emission Products

AFTERMARKET DPF

The Leading OEM Alternative

Skyline Diesel Particulate Filters

ADVANCED TECHNOLOGY
FOR A **CLEANER**
FUTURE

For fleets of any size, equipment dependability and uptime are key factors to delivering quality service and long-term profitability. Skyline® diesel particulate filters (DPF) are the leading alternative to OEM filters for a number of important reasons:

- OEM equivalent diesel emission control performance
- Exact-Fit design for easy installation
- Manufactured with new materials, not reconditioned
- High-quality stainless steel for durability and corrosion resistance
- Cordierite substrates with advanced coatings for optimum performance
- Backed by a 3-year, unlimited mileage warranty¹
- Designed and built in USA
- Broad coverage for most leading engine makes and models

Exact-Fit Design

Each Skyline DPF is specifically designed as a direct replacement for the OEM filter. Our Exact-Fit approach makes installation fast and easy without cutting or welding to get you back on the road.

Broad Application

Skyline diesel particulate filters (DPF) are available for a wide variety of 2007 and later heavy-duty and medium-duty on-highway diesel applications:

- Heavy-duty trucks
- Medium-duty trucks
- Buses (transit, school, motor coach, shuttle)

Skyline DPF Application Chart*

Caterpillar	C7, C9, C13, C15
Cummins	ISB, ISC, ISL, ISM, ISX
Detroit Diesel	Series 60, DD13, DD15, DD16
Hino	J05D, J05E, J08E
International/Navistar	MaxxForce 5, 7, DT, 9, 10, 11, 13, 15
Isuzu	4HK1, 6HK1
Mercedes- Benz (Daimler)	OM642LA, OM926LA (MBE 900), OM-460LA (MBE400)
Mitsubishi Fuso	4M50, 6M60
Paccar	PX-6, PX-7, PX-8, PX-9, MX-13
Volvo/Mack	D11/MP7, D13/MP8, D16/MP10

* Model year 2007 and newer engines only. Contact your local distributor for engine make/model availability. Skyline is not currently available for sale or installation in California.

¹ Please consult a distributor for details on warranty coverage.

Built with Experience

Developed by an engineering team with decades of diesel emissions control experience, Skyline DPFs combine Exact-Fit design with exceptional quality and extensive performance testing. Skyline means greater value because our design, state-of-the-art manufacturing and testing capability have resulted in a durable DPF with extended service life. Our DPFs are built to last and will keep your fleet running with lower operating costs.

Exceptional Quality

We understand that your operation depends on equipment uptime and reliability. To ensure optimum performance, we operate our own state-of-the-art emissions testing facility and have performed extensive durability and emissions control performance validation testing. Skyline DPFs are designed and tested to maximize DPF reliability, engine performance and service life.

Additionally, compared to remanufactured OEM DPFs, Skyline DPFs offer reduced exhaust restriction and optimum engine performance, combined with exceptional durability and longer service life.

About Skyline Emissions

Skyline Emissions, Inc., specializes in the design, development and manufacture of a complete line of aftermarket diesel particulate filters (DPF) and related emissions critical components.

As an ESW Group® company, Skyline Emissions has leveraged several decades of emissions control system experience. Founded in 1999, ESW Group is one of North America's leading companies in aftermarket heavy-duty diesel emissions parts, diesel emission control systems, manufacturing, distribution, and emissions testing services.
