

Source:	Prestolite Electric Ltd - Greenford, London, UK
Date:	July 11, 2013
Bulletin No:	TSB4050
Models:	N1 type alternators
Subject:	Supplied pulleys

Prestolite equivalent N1 type alternators replace multiple cross-references.
The basic alternator is identical, but in some cases the pulleys fitted varies.

We supply the most commonly found pulley.
If you require a different pulley, please re-use your original pulley.

Changing the pulley does not affect your warranty conditions.

Pulley change procedure:

1. Use suitable workshop PPE to change pulley.
2. Use an impact wrench and suitable socket to remove the pulley nut and washer.
Keep these for re-use.
3. Remove the pulley and clean the shaft, ensuring it is free from debris.
4. Fit replacement pulley, washer and shaft nut. Finger tighten the nut.
5. Using a pulley installer kit use 8mm hex key in the shaft hex profile to secure shaft while torquing the shaft nut.
Torque the shaft nut to 90Nm \pm 5Nm.
