

LoadHandler L36™ Alternators

Brushless Design for Long-Haul Applications

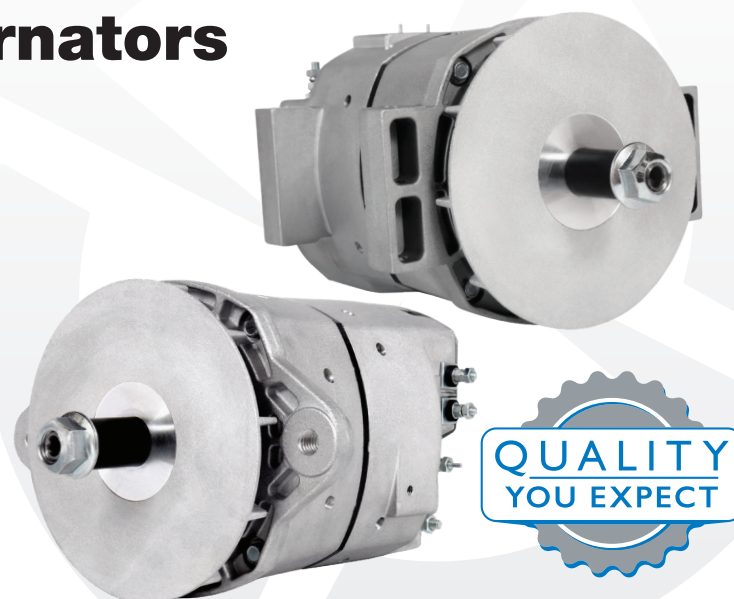

12V, 170-Amp

Reliable Power Source

Higher Efficiency

100-Percent New, Drop-In Replacement

New service LoadHandler Power™ L36 brushless alternators provide reliability and performance to heavy duty, long-haul applications. The LoadHandler alternator line helps to extend service life, improve performance and provide more reliable vehicle uptime.

FEATURES	BENEFITS
Brushless Design	Brushless performance – ideal for long-haul applications – helps to reduce weight & size downfalls of conventional designs
Drop-In Replacement	Engineered to match OE design in appearance, fit & function
Heavy Duty Design	Heavy duty bearing, rectifier & diodes increases service life & helps to improve performance in extreme operating environments
100-Percent New Unit	High quality & affordable alternative to rebuilt alternators
Fully Performance Tested	Undergoes stringent testing to help ensure durability & performance
Remote Sense Capable	Reduces battery charge time & returns battery to a full state of charge between vehicle stops

SPECS	
System Voltage	12V
Performance Output	170 Amps
Rotation	Bi-Directional
Max Speed	8,000 RPM Continuous 10,000 RPM Intermittent
Temperature Rating	93°C/200°F
Mounting	J180 Hinge Mount Pad Mount
Warranty	Heavy duty applications, 1-year, parts only*

* Check with your LoadHandler representative for more details
