Heavy Duty Gear Reduction Design

12V 5kW

Replacement for Diesel Engines Up to 11L

Leece-Neville PowerPro™ starters offer unmatched reliability and performance in a space-saving package. These advanced starters integrate the latest technologies available to provide reliable performance at each and every start, including an electrical soft-start relay that allows the pinion to properly engage the ring gear before cranking plus overcrank protection that protects the starter from high-temperature damage when starting the motor in extreme conditions.

PowerPro 5 high-torque, high-power starters deliver a host of features to help reduce operating and maintenance costs while increasing vehicle uptime, including overcrank protection, planetary gear reduction, rotatable flanges, soft start relays and more.
